# JOHN STEPHENS EDITIONS

JS Editions is a collection of timeless, functional and beautifully made pieces, bringing the best of the past to fill the needs of the present.

The collection encompasses furniture designed in-house or by our extended company abroad, finished locally by expert craftspeople. We also have exclusive agency in New Zealand for lighting from the finest makers in England and France.

This catalogue represents our standard range, however our creative team can assist with bespoke requests whether it is in the choice of upholstery, finish or in some cases, dimensions of furniture.

We aim to provide furniture that is built to last and that provides much enjoyment in its use, from this generation to the next.

# REFECTORY DINING TABLE

A refectory is a dining room, erstwhile in monasteries and academic institutions. It is fitting that the term derives from the Latin reficere, to remake or restore.

Our refectory tables are handmade in New Zealand using seasoned French oak which can be polished to a wonderful depth. Shown here with a curved iron base and our antique brown finish.
